INNOVATION

IMPACT

OPPORTUNITY

**TODAY'S WORLD RUNS ON ELECTRONICS.** From cell phones to internet access, today's world is increasingly defined by any-time, any-place connectivity. For more than 60 years, Agilent Technologies has been the world's premier provider of measurement equipment for the electronics industry. We are the test solutions partner to every engineer, scientist and service provider in the world in every phase of the electronic product lifecycle – from research to manufacturing, installation, and maintenance.

# NEW VISION NEW EXPERIENCE

*Pat Byrne speaking at a United Way rally*

*"These are exciting times for Agilent. We have earned our reputation as the premier measurement company. Our goal is to fill new professional positions with top college graduates who will challenge us to create new solutions for customers and take us to the next stage of success."*

*Patrick Byrne*

Electronic Measurements Group President  
Senior Vice President, Agilent Technologies

*Agilent Santa Rosa manager, Ricky Overdorf, leading a teleconference with coworkers around the world*

# WHAT WE DO

Santa Rosa is Agilent's headquarters for the Electronic Measurements Group (EMG). As EMG's premier research and development (R&D) site, Santa Rosa is an intellectual center focusing on Agilent's highest performance electronic and communication test products and the technologies that enable those products.

Our employees' work with aerospace / defense providers makes the world safer. Our focus on the broad electronics industry makes ever higher levels of technology available to more people around the globe. When you join Agilent's team in Santa Rosa you will hone your skills with the best engineers and scientists in the industry, and partner with top global customers to develop and implement leading-edge products using the latest software and hardware techniques and tools.

We are hiring the best people in engineering, research, field sales, marketing, finance, and business management to redefine technology. If you are a newly qualified engineer, scientist or business professional looking for a place to shine, Agilent is the place for you.

*Engineers Michael Wohlert and Angelo Umali using Agilent spectrum analyzers to measure a circuit*

# THE AREA ROCKS

Situated in the hills overlooking the city, Santa Rosa is 55 miles north of San Francisco and 30 miles east of the scenic Pacific Ocean coastline. As the gateway to the world-famous Sonoma County wine region, Santa Rosa offers a town-and-county blend of art and culture, food and recreation.

## The population

- 150,000 people

## Urban features of the area

- Wells Fargo Performing Arts Center
- Free downtown WiFi service
- Sonoma State University and Santa Rosa Junior College provide continuing education opportunities

## Outdoor opportunities in the area

- Scenic coastline stretches 58 miles
- Cycling and mountain biking--Amgen Cycling Tour of California brings international cyclists to Santa Rosa
- Kayaking, canoeing and boating on the Russian River, Tomales Bay and San Francisco Bay
- Hiking and camping in nearby state parks
- Skiing in the Sierra-Lake Tahoe areas

## Wine country

- More than 200 world-class wineries in Sonoma County
- Adjacent to the Napa Valley
